

Tyre (Rim) Warranty

Tyre (Rim) Warranty

It is only a matter of time before you damage the tyres on your vehicle. The Tyre (Rim) Warranty will repair or replace your tyres/ rims in the event of damage.

Why do I need this?

We are all aware of the shocking state of our roads and with the hustle and bustle of the ever-increasing volume of traffic - it is only a matter of time before you damage the tyres on your vehicle, without being involved in an accident. The Tyre (Rim) Warranty will repair or replace your tyres in the event of accidental or malicious damage.

A vehicle's tyres are extremely susceptible to damage, yet we so easily and readily expect that the tyres on our vehicles will withstand the hazards of our day to day motoring while carrying the weight of the vehicle, its passengers and luggage, on roads that are cracked, potholed and littered with debris such as broken glass, nails and metal. Just take a look at the pile of tyres outside your nearest tyre retailer! Rarely will you find a tyre worn beyond limits. That is because most tyres are replaced prematurely due to damage or puncture.

Tyre (Rim) Warranty is ideal protection because...

- It's easy - You pay a once-off premium
- It makes financial sense - Helps to cover the unexpected cost of repair or replacement
- It's convenient - Tyres can be replaced at any registered fitment centre
- It's accessible - It covers all brands of tyres as well as pre-owned tyres
- It's immediate - You're covered from the moment you sign
